The Lakewood Chamber of Commerce is a non-profit membership-based organization of over 500 businesses that is vitally concerned about the economic future of the Lakewood area. The Chamber represents the concerns and needs of its member businesses through market research and promotion, lobbying on the state and local level, and providing networking opportunities to sustain and encourage growth and economic development in the area.

The Chamber is comprised of local business men and women who join together for the purpose of promoting the commercial progress of our community, remaining a membership based, not-for-profit organization that provides business services, referrals, and networking opportunities.

The strength of the Lakewood Community lies in its Chamber members' investments of time, energy, talent and financial resources. Because the Lakewood Chamber of Commerce encompasses the vast expertise of a diverse membership, and close ties with the military community, it has the knowledge and insight to identify issues and opportunities of importance to its membership and the community; and the combined means to devise and implement strategies to address them.
