Pierce Transit: nearly 1,000 dedicated individuals committed to moving Pierce County forward. Public transportation offers a safe, reliable, and low-cost transportation choice. Over 50,000 boardings occur on Pierce Transit every weekday, helping people get to work, the doctor's office, or shopping. We work to be there for every trip.

In 2008, while you experienced record high gas prices, we saw historic increases in bus ridership. And even though gas prices settled down, people are sticking with Pierce Transit. Today, we're working to ensure Pierce Transit continues to provide efficient, innovative, and green services. During these tough economic times, when we're forced to make difficult decisions about service delivery, your voice becomes especially important. We will listen carefully. You and your neighbors deserve to have viable transportation choices.
